

My name is Jane Larkin and I am the Deputy Principal here at Newton British Academy in Barwa City. We are an international BSO accredited school which caters for students from EYFS to Key stage 4. Last year, we recognise the hard work, dedication and motivation consistently shown by our overall school community

Here at NBA, we aim to provide an inspiring academic education for each individual student in line with the National Curriculum of the United Kingdom. We carefully recruit staff that demonstrate a genuine passion and imagination for learning, who can inspire, engage and challenge each student. Such an approach has led to consistent student academic progression and a continuous growth in results over the last number of years across all sections of our school.

NBA is a school where our students build memories that will be cherished forever, make friendships that will last a lifetime and gain knowledge and experiences that will prepare them for life ahead and gain knowledge and experience that will prepare them for life ahead and the challenges this may bring. As a school we implement a holistic approach to our teaching and learning, which allows every one of our students to develop academically, physically, emotionally and socially to ensure that they become well rounded individuals.

At NBA we are proud of our school community, our staff, our parents and most importantly our students and applaud each and every one of them for rising to the challenges that Covid 19 has presented in 2020. Despite these challenges, the school has continued to facilitate a quality educational experience for all of our students whenever they are attending school onsite or through online learning. As some of the students have returned to the school site, school life is slowly beginning to return to normal. It is a joy to walk around the school and hear students and teachers motivated and enthusiastic about their teaching and learning experiences on a daily basis

Educating children is a huge privilege that brings with it great responsibility. We are fortunate to be a part of a devoted school community at NBA who are committed and inspired to provide our students with a high quality education encompassing our school mission, vision and values

Thank you for taking time to listen and we hope you enjoy learning about our approach to learning through the testimonials of our students, parents and staff
